

## CLARIFICATION NO. 1 - WIRE ROPES REPLACEMENT PROJECT

Request for information and changes.

Port of Hood River Wire Rope replacement project.

Contractor questions in black. Answers below in red.

9/23/22

1. Page 11 of the solicitation requires "3 Prior Project References" to be included with our bid. Is there a specific form or format the Port would like us to use for these references?  
**Please in your own format submit your references and contact info.**
2. On page 20 of the solicitation (2<sup>nd</sup> page of bid proposal) the description is blank. Are we supposed to fill in our own description, or was the text omitted? Please clarify.  
**Page 18 is a blank page with description which follows the format used on all sections of the contract. Page 19 has the bid proposal sheet. Page 20 has the Bid sheet to be filled in by the contractor submitting the bid.**
3. Page 76 of the solicitation requires "Personnel proposed for this role (Supervising Personnel) shall have a minimum installation experience of two (2) movable bridge counterweight rope replacement projects." Due to limited number of wire rope replacement projects in the Pacific Northwest, we request this language be changed to "Personnel proposed for this role shall have a minimum installation experience of **one (1) movable bridge counterweight rope replacement project and one (1) movable bridge rehabilitation project within the prior five (5) years.**  
**We will make this change through addendum to the contract documents Monday September 26.**
