To: Port of Hood River Budget Committee
From: Michael McElwee, Budget Officer
Date: May 7, 2013
Re: Budget Message for Fiscal Year 2013-14

The annual budget for the Port of Hood River is prepared by staff for review and approval by the Budget Committee and subsequent adoption by the Port Commission. This memorandum provides an overview of the proposed FY 2013-14 budget and other information in accordance with O.R.S. 294.

Overview

The Port operates on a fiscal year that begins July 1 and ends June 30. Through the annual budget, policy and project decisions of the Port Commission are planned and implemented. At all stages of budget preparation public input is sought and welcome.

Budget preparation follows these key steps as required by state statute:

- A Proposed Budget is prepared by the Port's designated Budget Officer based on discussions at the Commission's Spring Planning meeting and other factors.
- The Budget Committee discusses the Proposed Budget and makes changes that are approved by Budget Committee vote. After approval, the budget becomes the Approved Budget.
- The Approved Budget is the subject of a public hearing when the Commission obtains input from any interested party. This year the public hearing is expected to occur on May 21.
- The Commission considers any changes and adopts the Approved Budget becoming the Adopted Budget and taking effect on July 1, 2013.

The Port of Hood River is designated as a Special District within the State of Oregon in accordance with ORS 777 and other statutes. All budget activities of the Port are categorized within the following three funds:

- **General Fund:** This fund includes activities related to governmental activities. The revenue comes from property tax receipts. Since property taxes are insufficient to pay all governmental related expenditures, there is a transfer from the Revenue Fund for the difference.

- **Bridge Repair and Replacement Fund:** This special revenue fund segregates revenues and expenditures related to capital improvements associated with the Hood River Toll Bridge. Sources of revenues are grant monies, bond receipts, and dedicated revenue from both the 1994 and 2012 toll increases. These monies are transferred from the Revenue Fund. Expenditures for the fund are associated with capital improvements that extend the useful life of the bridge.
- **Revenue Fund:** Most of the Port's activities are business-type activities and are accounted for in the Revenue Fund. The major revenues are from bridge tolls and tenant leases. The revenues and expenditures are identified and allocated to asset centers.

Financial Policies

The key overall financial policies that underlie the proposed budget are described in the Port's Strategic Plan. These are summarized as follows:

1. Financial Management—the Port seeks to be financially self sufficient with a balance between sources of capital and cash flow.
2. Asset Management—The Port seeks to manage its assets with a holistic and integrated strategy intended to accomplish the public purposes described in ORS 280 and ORS 777.

Staff anticipates bringing substantive changes and clarifications to the Port's financial policies to the Commission for review and approval in FY 2013-14.

Budget Highlights

The following sections are highlights of the Proposed FY 2013-14 Budget organized by major areas of the Port's operations.

ASSET AREAS

Industrial/Commercial Properties

- The Port has invested significant capital in various projects in recent years to achieve strategic objectives. The Port must focus its capital expenditures on a limited number of priority projects and to build reserves for future capital projects.
- Overall occupancy rates remain high in Port buildings and there is limited space available for new tenants. However, the Port will not be in a position to build additional space in the near term but will seek ways to more effectively utilize its leased properties and maximize net lease revenues.
- In FY 2012-13 a comprehensive inspection of all Port buildings and paved areas was carried out. This analysis showed some significant capital projects would be needed to maintain the facilities in good condition. These needs are reflected in the budget and in our 10-year financial forecast model.

- The Expo Building will likely be substantially vacant by late FY 2013-14. This facility has represented an important revenue source over the past few years. The draft budget contains a significant commitment of funds for professional services as we anticipate a substantial renovation in FY 2014-15.
- The Port continues to pursue the acquisition of additional industrial lands to achieve economic development and employment goals. It is possible that the Port will be in a position to acquire a new industrial property in FY 2013-14. Funds are budgeted for this purpose.
- The budget makes a significant financial commitment to professional services for planning and pre-development work associated with Lot #1. This recognizes the importance of Lot #1 for accommodating new private investment on the waterfront.

Bridge/Transportation

- The Port has completed painting the lower chords of the Hood River Bridge. This was the most important of a series of capital projects that will be needed over the next 30 years. The Port will not be able to take on a project of this magnitude for some time. However, the budget anticipates investing in engineering for a series of modest but important capital projects in the next few years.
- We have been monitoring unexpected deterioration in the metal bridge deck that was installed in 2005. Port Staff is evaluating various welding techniques in an attempt to address the problem and the budget recognizes this effort in FY 2013-14. This represents an area of uncertainty and risk.
- The toll increase that was implemented in January 2012 has been in place for one full calendar year. Actual revenue has been slightly above projections and this is reflected in the budget.
- The budget assumes an overall increase in expenditures for maintenance, repairs and inspections consistent with the recommendations in the Long-term Financial Forecast Model completed in 2011.

Recreation/Marina

- The Marina Electrical Upgrade, a significant construction project that was initiated in FY 2012-13 remains to be completed. There is some risk and uncertainty associated with this project and the Port must remain focused on its successful completion in FY 2013-14.
- The budget includes funds for a higher level of year-around maintenance and repairs in the Marina. This addresses a long-standing deficiency and represents a commitment to slip tenants who have incurred a significant rate increase associated with the Electrical Upgrade project.

Airport

- In FY 2012-13 it is expected that the most significant construction project at the airport in many years—the runway shift—will be completed. The Port has committed the next two years of its FAA entitlement funds for this project. As a result, we will not be in a position to carry out any major capital projects until entitlement funds begin to accumulate again.

Administration

- For this proposed budget, staff contributions to health insurance costs remain at the same level as FY 2013 (10%). However, the \$70/mo. subsidy for supplemental insurance is eliminated. This will have the effect of reducing the increase in health insurance costs.
- Overall personnel costs are budgeted to increase about 9.9% in FY 2013-14. This includes increases in medical insurance costs and PERS and the addition of a full-time limited term receptionist to handle increasing counter transactions and phone calls.
- The budget assumes the final push of a significant staff effort to update the Port's strategic plan. Associated with this will be a significant investment in an economic impact analysis.

Summary

The Proposed FY 2013-14 Budget reflects project priorities, staffing levels and capital and administration expenditures that staff believes are consistent with the Port's mission and Commission direction. The Budget Committee's review, modification and approval of a Proposed Budget followed by Commission adoption will be necessary before the budget can take effect July 1, 2013.
