2. Jim Also advised that they were trying to get the D.E.Q., thru Century West, to allow a settlement pond for waste, rather than hauling away somewhere.

4. Some discussion concerned hangar plans--- Jay Lawhon reported on a building he knew of that was 80 X 60 ' that was in process of being built for approximately \$ 8,700.00 which was for purpose of storing aircraft. This was said to be impossible, but the building is still being built for that.
