

Hood River Bridge Hood River, OR
Replacement Drives, Motors and Skew Control
Mandatory Pre-Bid Walk Through

Questions and Responses

1. Question; How long after bid closing will the contract be awarded?
Response; 14 days (calendar) following bid closure date.

2. Question; Can you provide the contact information for the system vendor indicated in the specification?
Response; Yes, the systems vendor or equal specified is;
Panatrol Corporation
161 Tower Drive
Unit D
Burr Ridge, IL 60527
Main 630-655-4700
Contact; Mr. Bruce Krebbers

3. Question; What laydown areas will be provided for the contractor?
Response; The Port of Hood River will provide required lay down area for contractor material storage and use.

4. Question; What marine closures have been approved for the project?
Response; Port of Hood River will clarify project marine outages by addendum to the bidding documents.

5. Question; What duration highway bridge closures will be allowed for the project?
Response; Short duration outages of 20 minutes will be allowed. Extended outages of 1 to 4 hours can be scheduled but only at night.

6. Question; Experience indicates that the specified droop cable is a long lead item that could affect the project schedule. Does the Port of Hood River have any suggestions to reduce this lead time?
Response; We understand the issue associated with the lead time of the droop cable and have investigated alternative suppliers. Port of Hood River will specify a droop cable supplier whose delivery will meet project requirements by addendum to the bidding documents.
