

Lower Mill Dirt Haul and Placement Project Clarification #1

Issued: Tuesday October 9, 2018

See questions and answers asked by potential bidders:

Q 1. I read in the specials that after the material has been placed from the borrow site that 2" of compost and tackifier is required over the place borrow material at the airport. Did I read that right or do you want that at the borrow site after the material has been removed from the site?

A 1. *This item has been removed from the specifications and is not included in the Project.*

Q1. Is the contractor responsible for screening the borrow material before placement at the airport?

A1. *No, the material will not be screened*

Q3. Will there be a pay item to dispose of any unwanted spoil material from the screening process?

A3. *No, there will be no screening.*

Q4. What grades will the borrow site be left at once the borrow material has been removed for the Lower Mill site?

A4. *The borrow site will be taken down to native soils. If Bid Alternate #1 is selected, then the grades will be brought to design grades per the Bid Alternate #1 grading plan.*

Q5. Will there be a pay item for Contractor supplied Additional Import Material suitable for the top 12" of slope embankment material?

A5. *This item is deleted from the Contract.*
